Dear friend of ELEF:

For more than 35 years, donors like you have helped the East Lansing Educational Foundation (ELEF) provide programs, projects and possibilities in K-12 classrooms for East Lansing Public Schools. Because of your investment, ELEF provided \$47,200 last school year in teacher grants to enrich the educational experiences students receive across the district. Here are a few examples from our teachers on how your support impacts learning.

“The grant for IPAD’s for my 120 math department students was used for SAT training, extra help using Khan Academy and our new Math Mentoring course.”
–Amy Sayers

“Through ELEF funding I was able to work with two professional musicians to provide our 5th grade students with an “Artist in Residence” project. We created customized lessons that engaged the students in rhythm and creativity.”
–Katie Pike

Donations to ELEF go directly to enhance the exceptional academic, technological, physical fitness, and arts oriented experiences students receive in EL public schools. **We hope you will help us continue to make a difference for students with a gift to ELEF today.**

You can make your gift by returning the enclosed form or by visiting us online at www.elef.us/donations.

Thank you for your support.

Kwafo Adarkwa
